

PROFILE

Executive Leadership | International Development | Maritime, Multimodal Transport & Logistics Real Estate Expert

Executive with expertise in international business development, cross-functional team leadership, and competitive market positioning, delivering positive outcomes with robust and sustainable gains. Darryl's mission is to help organizations thrive by overcoming the obstacles of moving goods and people to markets.

Mr. Anderson's private sector roles have included Managing Director, Wave Point Consulting Ltd, President & CEO of the Port Alberni Port Authority, and Business Development & Planning Manager for the Greater Victoria Harbour Authority. Non-profit and public sector leadership positions involve serving as Executive Director, Mercy Ships Canada, Policy Manager, Rail, Intermodal & Marine for Alberta Transportation, Manager, Trade Policy and Business Intelligence for Alberta Energy department and Chief Harbour Authority Implementation for Fisheries and Oceans Canada.

Darryl has a proven track record of accelerating revenue growth and the integration of environmental social and governance considerations into project investment or policy decisions. Mr. Anderson has expertise in international business development, cross-functional team leadership, and competitive market positioning, delivering positive outcomes with robust and sustainable gains. He integrates global macroeconomic trends with local market conditions, operational insights, and regulatory knowledge to enlarge market share and maximize margin for small and mid-cap firms. Identifying and capitalizing on emerging business opportunities propels organization to the top tier of their industry. Helping firms achieve the lowest cost delivery of products utilizing, road, rail, marine transport as well as other logistics options drives improved business performance, shareholder value and competitive advantage.

Customers range in size from a \$16 billion diversified international shipping company to the leadership teams of private and public-sector organizations. He has served clients from, or with project interests in, North America, Australia/New Zealand, Europe, The Gulf Cooperation Council Region, West and South Africa and South America.

Education

- MBA (with Distinction), Maritime Management, Australian Maritime College, Tasmania, Australia
- BA (Economics Concentration), Trinity Western University, British Columbia, Canada
- Diploma, Urban Land Economics, University of British Columbia
- Certificate in Shipping & Marine Operations, British Columbia Institute of Technology

PROFESSIONAL EXPERIENCE

WAVE POINT CONSULTING LTD.

Victoria, Canada

Managing Director

2008 - Present

Founder of a bespoke advisory practice specializing in strategy, international business development, multimodal transportation, and logistics real estate solutions to clients in mature and emerging markets. Proven track record in leading multi-disciplinary teams. Maintained outstanding working relationships in all areas of the client's organization. Initiated and sustained a culture of accountability and continuous improvement. Senior consultant in over 80 best-in-class commercial feasibility, operational efficiency, environmental sustainability, and regulatory analysis projects.

- Contributed to the design, development, and implementation of sustainability initiatives to ensure that client's transportation and logistics practices and business operations are environmentally friendly and compliant with government rules and regulations.
- Evaluated the customer potential and created tactics for entering new domestic or international markets, and/or the feasibility of developing new logistics infrastructure.
- Achieved market access using the lowest cost delivery of products utilizing, road, rail, marine transport as well as other logistics intermediaries.
- Assessed the cost competitiveness and performance of transport carriers and logistics options that included gauging the trade-offs between transportation/inventory costs, and service levels.
- Improved public sector efforts to capture economic development opportunities or enhanced sustainability outcomes through the completion of freight forecasting scenarios, route/mode/rate benchmarking analysis, transportation infrastructure planning, or regulatory review assignments.

MERCY SHIPS CANADA

Victoria, Canada

Executive Director | Special Advisor | Interim National Director

2018 - Present

Mercy Ships Canada was named one of Circle Act's Absolute Top 99.5% Charities in Canada who bring about high impact positive change. Developed and implemented strategic priorities for national expansion increased volunteer crew recruitment, international program investments and revenue growth. Managed P&L and all core functions: marketing, operations, finance, human resources, and technology systems (including Teams, DPO, Raisin, Emplifi and cyber security). Provided leadership, spiritual support, and organizational oversight to 9.6 FTEs and up to 100+ volunteer crewmembers annually.

- Boosted revenue 13% by achieving a 70% donor retention rate, increasing gifts per new donor by 38% and revenue per gift 11%. Improved the charity's fundraising ratio by 52% and average donor lifetime by 17%. Championed the digital transformation of marketing system. Established new KPIs that enhanced organizational competitiveness.
- Increased funds available for international program investment by over \$2 million. Led the integration of environmental, social and governance considerations into the enterprise risk management program for international project investment decisions.
- Developed and introduced new compensation philosophy. Deployed HR best practices regarding employee performance, equitable employment, ethnic diversity, linguistic capacity, and female staff member leadership development opportunities.
- Obtained and maintained Imagine Canada accreditation that strengthened Board governance.

GREATER VICTORIA HARBOUR AUTHORITY
Manager, Business Development & Planning

Victoria, Canada
2007 - 2008

Rapidly promoted to senior executive accountable for all marketing, business development, land use and multimodal transportation planning, real estate, and security services for a rapidly growing port with \$66 million in assets. Oversaw stevedoring firms that operated in a unionized and complex supply chain/logistics environment. Resolved stakeholder/community concerns associated with port's growth through effective collaboration with key stakeholders, the Board, First Nations, and business leaders. Supervised and coached full-time staff of 11 and 4 contract employees. Introduced the balanced scorecard approach to business planning and budgeting. Developed an enterprise risk management program.

- Increased cruise traffic volume 25%, heavy-lift project cargo over 100%, and six new tenants resulting in over a 15% rise in gross revenue.
- Conceived and introduced the Cruise Tourism Community Initiative, a set of best multimodal transportation environmental and social operating practices to enhance the guest experience and mitigate the local community impact of cruise tourism at Canada's largest cruise port-of-call.

PORT ALBERNI PORT AUTHORITY
President/CEO

Port Alberni, Canada
2005 - 2006

Held P&L responsibility. Executed the delivery of a Canadian Port Authority's strategic objectives. Grew revenue through a business/logistics transformation process in response to rapidly changing market conditions and emerging domestic and international supply chain requirements. Guided a complex set of commercial negotiations arising from the merger and corporate restructuring of the port's dominant customers. Crafted land-use planning and infrastructure investment plans for shipping terminal and real estate holdings. Ensured port operations safety, security, and regulatory compliance. Supervised 22 employees including the unionized traffic and maintenance workforce and the non-unionized staff.

- Increased gross revenue 17% and net profit 25%. Diversified shipping activity resulted in cargo volume improving 34% and deep-sea shipping traffic over 50%.
- Improved asset utilization levels and cash flow management through new and timelier reporting to the Board of Directors.
- Negotiated an "approval in principle" for a foreshore lease for a major aggregate mining project, and head lease rent reduction with the Province of B.C.

ALBERTA ENERGY
Manager, Trade Policy & Business Intelligence

Edmonton, Canada
2003 - 2005

Recruited by a \$7 billion organization, as the first to lead and develop a 15-member team that provided trade development and commercial intelligence to executives regarding markets that required multimodal transportation solutions: oil, gas, pipeline petrochemical, electricity, and coal sectors. Identified and advanced the Alberta Government's interests in response to WTO, NAFTA, and Canadian energy trade policy developments. Initiated successful energy industry consultation at the 2004 Global Petroleum Show.

- Educated and prepared the Alberta government to effectively contribute to national and international energy policy discussions. Collaborated with other Alberta Government departments to develop/improve stakeholder relations in support of energy advocacy or investment attraction events in Canada, US, Mexico, China, Europe, and South Africa.

ALBERTA TRANSPORTATION**Manager, Rail/Intermodal & Marine**

Edmonton, Canada

1999 - 2003

Provided multimodal transportation policy advice to a \$1 billion organization. Rapidly promoted to manager, initiating, directing and securing industry participation in major transportation and logistics studies (i.e. CANAMEX Trade Corridor, Benchmarking Alberta's Transportation Infrastructure). Identified factors influencing Alberta's market opportunities and inter-modal system (air, rail, and trucking) competitiveness.

- Provided policy advice about international and domestic transportation policies issues, including waterfront and port performance. International liner and coastal shipping operations: *Canada Marine Act*, *Carriage of Goods by Water Act*, *Shipping Conferences Exemption Act*, *Canada Shipping Act*, *Marine Pilotage*, *Canadian Grain Ports Review*, and *Canada Transportation Act Review*.
- Co-led the development and implementation of the Alberta short line railway regulations.

FISHERIES & OCEANS CANADA**Chief, Harbour Authority Implementation**

Vancouver, Canada

1992 - 1999

Led property management staff of three responsible for 200 waterfront sites (including 12 aerodromes) valued at \$500 million. Major facilities were key centers supporting inbound supply chain activities and the outbound logistic functions needed for the rapid unloading and handling of perishable cargo destined for both domestic and international markets. Developed marketing proposals and negotiated with real estate developers and civic leaders during the multimodal transportation land-use planning and construction of high-profile mixed-used waterfront developments. Held operating responsibility for up to 70 facilities when acting for senior manager. Co-led branch business planning and budgeting initiatives.

- Achieved 45% reduction in property taxes with cost savings of \$800,000/year. Reduced insurance costs by 51%, with savings over \$225,000/year.
- Public sector reform initiative accepted in 30+ communities, resulting in 40 partnership agreements.
